Every cowboy's dream - Rhett AKINS - BPM 102

This dance adapts the fun Roaring Twenties Flapper Dance, the Charleston, into a great Country and Western Line Dance. It is fairly unique in that it can be done to music which is fairly fast.

It is sometimes done with a straight step forward and back pattern. However, the most fun way to do it is with the real Charleston foot pattern and arm movements as it is done in the Carolinas where the Charleston originated, where needless to say, it is widely done.

The classic Charleston step includes moving the right foot forward and out and around in a 1/2 circle to touch forward on Count 1. At the same time, the arms are moved first to the right to compensate for the movement of the right foot out around to the front and back in to touch forward. When done fast, the arm movements are almost unavoidable.

On the "& Count", one swings the right foot back out to the right and to the back, shifting weight to the right foot on Count 2, with the arms now going to left.

On the next "& Count", begin swinging the left out around and to the back to touch on Count 3, with arms again going right.

On the final "& Count", one swings the left foot forward out to the left and forward, shifting weight to the left foot on Count 4, with the arms now going to left.

The Straight version given below makes a great beginner's dance. The 4-wall Charleston-style version makes a great showpiece dance. Both can be picked up by experienced line dancers by just walking up and trying it.

Try it both ways. Both foot work styles are included below. Starting with weight on left,

TWO CHARLESTON STEPS

1-4 Charleston Style : Swing R around to touch forward - Swing R back around and step R next to L,
Swing L around to touch to back - Swing L around and step L next to R.
Straight : Touch R toe forward, step R next to L, Touch L toe behind, step L next to R.

5-8 Charleston Style : Swing R around to touch forward, - Swing R back around and step R next to L,
Swing L around to touch to back - Swing L around and step L next to R.
Straight : Touch R toe forward, step R next to L, Touch L toe behind, step L next to R.
